

# m2 Anti-Slip Mat

black

## Technical Data Sheet

### **Product Description:**

Our best workplace mat is made of special rubber with anti-slip properties on both sides. The anti-slip surface is equipped with 60-grit Aluminium Oxide, rated to R13 (ASR A1.5/1,2). The drainage slots with rear sided profiles avoid the accumulation of fluids on the mat. The outside edge of the mat is chamfered with a stumbling protection edge. The mat weighs only 10 kg and is therefore predestined for mobile use.

**Size:** 91 x 151cm, **Thickness:** 7 mm

### **Applications:**

The m2 Anti-Slip Mat is a workplace mat which prevents anti-slip accidents and therefrom resulting costs. Both sides are slip-resistant and the mat itself is portable!

- Internal and external use
- On smooth, wet floors or floors smeared with oil or grease
- For medium to high traffic
- Production areas
- In front of machines, tables, packaging stations
- Food processing, in product areas
- Machines, vehicles
- Drinks filling stations, kitchens, canteens

### **Properties:**

- Exceptional slip-prevention rated to R13 according to ASR A1.5/1,2
- Strong, long lasting adhesive
- Durable, highly wear and tear resistant
- Easy to clean
- Largely chemical resistant
- Mineral oil resistant
- Forklift traffic resistant
- On smooth, wet floors or floors smeared with oil or grease
- Usable on nearly all substrates
- Can be walked on immediately after installation
- For medium to high traffic
- Anti-fatigue
- Temperature-insulating
- Sound proofing
- UV-stable
- Wide temperature range of -40 to +100°C
